PACIFIC RESEARCH & ENGINEERING

TECHNICAL DOCUMENTATION for PR&E PRODUCTS

Pacific Research and Engineering has been acquired by Wheatstone Corporation of New Bern NC. from GatesAir of Quincy, IL. (formerly Harris Broadcast). Wheatstone now offers technical documentation and owner/installation manuals for PR&E products at pre.com.

Go to pre.com, scroll down and navigate to the product you seek, then click the TECH/MANUALS tab on that page. You will be presented with a list of available documents. Click on your choice to access a PDF download.

Note downloaded files may contain legacy references to GatesAir or Harris Broadcast technical support. Be aware that all technical support for PR&E products is now available solely from Wheatstone Corporation, its employees and designated official dealerships. References to other legacy support sites or contact information (i.e., GatesAir or Harris Broadcast) *are no longer valid*.

For technical assistance above and beyond the information contained in document downloads, contact Wheatstone Corporation directly (tel +1.252.638-7000, 9-5pm eastern standard time USA) or email techsupport@ wheatstone.com.

Thank-you.

OASIS CONSOLE USER MANUAL:

To download, go to PRE.COM, scroll down the page and navigate to the OASIS console page. Click on the TECH/MANUALS tab and download the file "Oasis 75-58 User Guide.pdf".

OASIS CONSOLE SOFTWARE APPLICATION:

To download, go to PRE.COM, scroll down the page and navigate to the OASIS console page. Click on the SOFTWARE tab and download the file "Oasis App v26". Note the "OCC App Readme" text file for same, and the Quick Guide PDF for the app as well ("71-2013rA Oasis App Quick Guide WS.pdf").
